

Exhibitions Nor-Shipping 2025

MITSUI E&S Co., Ltd. (Headquarters: Chuo-ku, Tokyo; President and CEO: Takeyuki Takahashi; hereinafter "MITSUI E&S") will exhibit at "Nor-Shipping 2025", which is taking place in Oslo, Norway, from Tuesday, June 3, 2025.

In February 2025, MITSUI E&S became the first in the world to begin test operation of the Large-bore Low-Speed Ammonia dual fuel engine and Ammonia Fuel Supply System Commercial Unit.^{※1} This marks a major step toward the realization of a decarbonized society, as we advance the development of ammonia-fueled propulsion systems. At our exhibition booth, we are pleased to present the latest updates on our progress.

The exhibit will be jointly presented with TGE Marine Gas Engineering GmbH (Headquarters: Bonn Germany; CEO: Jan Volkert Wibel)^{※2}, which will introduce the company's engineering experience in ammonia-fueled vessels.

Leveraging the strengths of being part of the same corporate group, MITSUI E&S Group provides early adaptation solutions for ammonia-fueled vessels.

We warmly invite you to visit our booth at Nor-Shipping 2025.

We look forward to welcoming you.

Date	June 3rd (Tue.) – 6th (Fri.) 2025
Venue	NOVA Spektrum
Booth Number	B02-10a
